

CareSource Interpreting Services Usage Policy

Introduction

CareSource provides its network of providers with access to interpreter services to help make it easier for Limited English Proficient (LEP), deaf and hard-of-hearing members to get the health care they need, when they need it.

CareSource partners with Propio Language Services to provide language interpreting services throughout Ohio, Indiana, Georgia, and Arkansas.

Through Propio's "Atrium" Interpreting Management System, eligible providers can:

- Confirm member eligibility to receive CareSource-provided interpreting services
- Schedule interpreting services for CareSource-eligible members' authorized appointments
- Reschedule and/or cancel appointments
- Receive notification of changes to member eligibility status

Providers may access the CareSource page on the Propio website to view information and resources that will help in accessing and successfully using interpreter services: [Welcome CareSource Providers | Propio Language Services](#). References to Propio's website are used throughout this Usage Policy.

This Usage Policy governs provider use of CareSource-provided interpreting services. After reviewing and acknowledging the terms and conditions included in this Usage Policy, providers may register with Propio to begin scheduling interpreting services directly with Propio.

What Types of Interpreting Services Are Available?

On-Site Interpreting ("OSI")

On-site Interpreting, or "OSI," is live, face-to-face interpreting services at the provider's facility. OSI interpreting is available in a number of spoken languages as well as American Sign Language (ASL). Please refer to the language list available on Propio's website for an up-to-date list of language availability.

OSI is typically the first option for CareSource members, with OPI and VRI used as backup options for rare languages, remote geographical areas, and other circumstances that result in no on-site interpreter available at a particular date/time/location.

Over-the-Phone Interpreting ("OPI")

Over-the-phone interpreting, or "OPI," uses qualified telephone interpreters, typically on a speaker phone, to facilitate communication between the provider and the member (and/or the member's caregiver). OPI interpreting is available in more than 350 languages. Please refer to the language list available on Propio's website for an up-to-date list of language availability.

OPI is most commonly used as a backup when an on-site interpreter is unavailable. It may be used as a first choice in limited circumstances, discussed in the section below, entitled "[What Terms and Conditions are Applicable to Using CareSource Interpreting Services?](#)"

Full details on how to use Propio’s OPI services are available on Propio’s website.

Video Remote Interpreting (“VRI”)

Video remote interpreting, or “VRI,” uses secured, HIPAA-compliant, live-streaming video technology on a computer, tablet, or smart phone to connect with a qualified interpreter in real time. For spoken languages, VRI is primarily used as a backup to OSI for those members who have challenges communicating via telephone. It is also the primary backup option for ASL.

VRI requires a strong, stable connection to high-speed internet as well as quality webcam and speaker options. Full technical requirements for successful use of VRI are available at Propio’s website.

Which CareSource Plans Are Included?

Propio interpreting services are available under the following CareSource plans:

Ohio	Indiana	Georgia	Arkansas
<ul style="list-style-type: none">• Ohio Medicaid• MyCare	<ul style="list-style-type: none">• Indiana Medicaid HIP• Hoosier Healthwise	<ul style="list-style-type: none">• Georgia Medicaid• PeachCare for Kids	<ul style="list-style-type: none">• <u>PASSE (*OPI/VRI only)</u>

Which Providers Are Eligible to Use Interpreting Services?

All active CareSource providers are eligible to schedule interpreters for authorized appointments.

Where Are Interpreting Services Available?

On-Site

Spoken language and ASL on-site interpreting services are available in most places across the states of Ohio, Indiana and Georgia.

Contact Propio directly to discuss on-site needs.

Over-the-Phone and Video

OPI and VRI services are available in all states 24/7.

Which Members Are Eligible for Services?

All active members of the CareSource plans referenced above are eligible to receive interpreting services through CareSource.

What Types of Appointments Are Covered for Interpreting Services?

CareSource offers interpreting services for eligible members for covered medical, dental, and vision appointments outside the hospital setting. Note that hospitals are required to provide interpreting services for LEP, deaf and hard-of-hearing members at the hospital’s own expense.

Covered Medical, Dental, and Vision Appointments

Interpreting services are available for the following types of medical appointments:

- Network physician offices
- Mental health – outpatient, counselling
- Dental Clinic
- OB/GYN/mammography/ultrasound
- Optical
- Pool therapy
- Physicals
- Speech therapy
- ENT
- Urgent care (only OPI services)
- Private physician offices leasing space in a hospital
- Sleep center
- Chiropractic care
- PT/OT
- Home visits (care follow-up)
- Diabetes center
- Pediatric dentistry
- Sports medicine
- Diagnostic imaging/ultrasound/MRI

Appointments Not Covered by CareSource Interpreting Services

Interpreting services are NOT provided by CareSource for the following types of service:

- Surgical procedures
- Pre-admission testing
- Anything within the Emergency Room (ER)/Emergency Department (ED)
- Same-day surgery
- Anything inpatient

What Terms and Conditions Apply to Using CareSource Interpreting Services?

CareSource has an obligation to its members to operate with fiscal responsibility. It is important that CareSource, providers and Propio work together to minimize unnecessary expenses, such as patient no-shows and last-minute appointments, while ensuring reliable, high-quality interpreting services for Members. The below terms and conditions apply to all providers use of Propio interpreting services through CareSource.

Using Propio’s “Atrium” Interpreting Management System

Providers will be granted access to Propio interpreting services directly through Propio’s online interpreting management platform known as “Atrium.” Each provider may have multiple “users” within the Atrium system. The Atrium system will allow providers to confirm member eligibility for interpreting services, schedule appointments, cancel appointments, reschedule appointments and view on-site interpreter credentials as qualified medical interpreters. Propio maintains an on-demand telephone/video system as a backup to the Atrium system and for emergency appointments. Significant reliance on the system increases the overall cost for interpreting services. Providers are encouraged to use the Atrium system as their primary means of scheduling, rescheduling and cancelling appointments. The Propio remote system may be used for instances where technical difficulties prevent access to Atrium and for emergency appointments (a need for interpreting services with fewer than 24 hours’ advance notice).

Propio provides training for providers on the use of the Atrium system. Additionally, user guides, quick reference sheets and how-to videos are available on Propio's website.

Frequent, non-emergency use of the dispatch center may result in a request from CareSource and Propio for additional Atrium training with provider staff, and, in extreme cases, may result in restrictions on the use of Propio interpreting services through CareSource.

Advance Notice when Scheduling Interpreting Appointments

Pursuant to CareSource's contract with Propio, providers are expected to schedule interpreting services as follows:

- **ASL:** A minimum of five business days in advance.
- **Spoken languages:** A minimum of three business days in advance.

Requests scheduled with less notice than the above timeframes will be reviewed, and an onsite (OSI) interpreter *may be* provided, if available. For emergency requests – less than 24 hours' notice – please use the Propio dispatch center to request service.

Because Medicaid eligibility is determined on a monthly basis, no interpreting appointments may be scheduled more than 45 calendar days in advance.

Limiting Use of "Rush Appointments"

A premium cost is associated with "Rush Appointments." A Rush Appointment is a request for an on-site interpreter with four or fewer hours' advance notice. Rush Appointments should be limited to true, medical emergencies where OPI cannot reasonably be used, and an on-site interpreter is necessary. Rush Appointment requests should be made via the Propio dispatch center. When scheduling a Rush Appointment, an explanation will be requested of the provider of the emergency that necessitated a Rush Appointment. Propio will enter a "Vendor Note" in the Atrium System with the explanation for CareSource review. Repeated use of Rush Appointments without reasonable explanations may result in restriction of use of interpreting services and, in extreme cases, CareSource reserves the right to discontinue the provider's access to interpreting services paid for by CareSource.

Using OPI as a First Choice

In some cases, a provider may wish to use OPI as a first choice instead of OSI. CareSource has approved the use of OPI as a first option in the following situations:

- **Short/Routine Appointments:** Short (30 minutes or less), routine medical appointments, such as an allergy shot, TB test or immunization.
- **Rare Languages:** Appointments requiring a rare language that is not available via OSI pursuant to the Propio language list (available on Propio's website).
- **Member Request:** Appointments where the member has expressed a strong preference for telephone interpreting, e.g., where the member prefers that the interpreter not be able to see him/her in a state of undress.
- **Emergencies:** Emergencies where there is no time to wait for an on-site interpreter.
- **Urgent Care:** Urgent care facilities may only use OPI.

To request an OPI appointment for one of the above reasons, the provider must schedule the appointment in the Atrium system and choose OPI as the Type of Service (please refer to the

OPI training materials on Propio's website for additional information). The provider will need to include a "Vendor Note" explaining the reason for using OPI in the first instance for that appointment. A lengthy explanation is not necessary here. Rather, "short/routine," "rare language," "member request," or "emergency" will suffice. (CareSource may contact the provider for additional details, if needed.) The provider should note the Atrium Appointment Number assigned, as this information must be provided when calling the OPI system to demonstrate that member eligibility for interpreting services has been confirmed.

Once the appointment has been scheduled, the provider may access Propio's 24/7/365 on-demand OPI system via the telephone number provided by Propio.

To use OPI as a first choice for a reason other than those listed above, a provider is required to obtain prior authorization from CareSource by contacting Provider Services and explaining why OPI is the best choice for the appointment.

Using VRI as a First Choice

In some cases, a provider may wish to use VRI as a first choice instead of OSI. CareSource has approved the use of VRI as a first choice in the following situations:

- **Short/Routine ASL Appointments:** Short (30 minutes or less), routine medical appointments for deaf or hard-of-hearing members, such as an allergy shot, TB test, or immunization.
- **ASL Emergencies:** Emergencies where there is no time to wait for an on-site ASL interpreter.

To request an ASL VRI appointment for one of the above reasons, the provider must schedule the appointment in the Atrium system to ensure that the member is eligible for interpreting services and choose VRI as the Type of Service (please refer to the VRI training materials on Propio's website for additional information). The provider will need to include a "Vendor Note" explaining the reason for using VRI in the first instance for that appointment. A lengthy explanation is not necessary here. Rather, "short/routine ASL," "emergency ASL" will suffice. In the event a short/routine appointment unexpectedly exceeds the 20-minute estimate, providers are encouraged to enter an explanatory Vendor Note in Atrium. (CareSource may contact the provider for additional details, if needed.) The provider should make note of the Atrium Appointment Number assigned, as this must be entered in the VRI platform to demonstrate that member eligibility for interpreting services has been confirmed.

Once the appointment is scheduled, the provider may access Propio's 24/7/365 on-demand VRI system via an internet browser or via the mobile app on a smart phone or tablet.

To use VRI as a first choice for a reason other than those listed above, a provider is required to obtain prior authorization by contacting Provider Services and explaining why VRI is the best choice for the appointment.

Length of Appointment

On-site interpreting resources are limited to the on-site interpreting staff employed by or through Propio. Providers are encouraged to schedule appointments for the length of time they reasonably believe will be required to allow each interpreter to assist multiple patients each day.

Note that on-site interpreters are not permitted to stay past the scheduled end time of an

appointment except in limited situations based on their daily schedules or an unexpected medical emergency arising during the appointment. In all cases, interpreters are required to contact Propio for permission to stay past a scheduled end time. In the event you require additional interpreting services past a scheduled end time, OPI may be used as an alternative (VRI for ASL) to finish the appointment with the member.

Timely Cancellation of Appointments

Providers are required to cancel interpreting appointments immediately upon learning that the underlying medical appointment has been cancelled. Should a provider cancel an appointment fewer than four hours in advance, a Vendor Note explaining the last-minute cancellation must be entered into the Atrium system (or provided to the Propio telephone dispatcher, as applicable).

CareSource understands that last-minute cancellations sometimes occur due to reasons outside the provider's control, including member cancellations. Repeated, last-minute cancellations for reasons other than those outside the provider's control may result not only in removing their ability to use Propio interpreting services paid for by CareSource, but CareSource may require the provider to reimburse it for the cost of the interpreting appointment.

Maintaining Up-to-Date User Information

Propio will allow providers to name multiple individuals as Users within the Atrium system. It is the providers' obligation to keep its user list, including contact information, up-to-date and to immediately inform Propio in the event a user leaves the provider's office or is for any other reason no longer permitted by the provider to access the Atrium system. Please note that the Atrium system requires a unique, valid email for each user. All communications through the Atrium system, including appointment confirmations, cancellations, and the like, will be sent to the user's email as entered into Atrium. As such, it is vital that providers maintain up-to-date email address information within Atrium. All email communications and notifications require close and timely attention and are considered part of all parties' responsibilities.

What Are CareSource's Rights and Responsibilities with Respect to a Provider's Requested Interpreting Appointments?

Right to View, Edit, and/or Cancel Appointments for CareSource Members

CareSource will have the ability to view all appointments providers schedule within Atrium for eligible CareSource members. To the extent that a provider also uses Propio services for non-CareSource members, CareSource will not be able to see appointments within Atrium for non-CareSource members.

Additionally, CareSource retains the right to modify and/or cancel any appointment in the Atrium system for any CareSource member at any time, for any reason.

Paying for Eligible Appointments

CareSource will pay Propio directly for all eligible interpreting appointments. Providers will only assume financial responsibility should they access Propio services knowing that the member is ineligible, that the type of appointment is not eligible pursuant to this Usage Policy, or other circumstances specifically stated within this Usage Policy. In such cases, CareSource reserves

the right to seek reimbursement directly from the provider.

Maintaining Up-to-Date Member Eligibility List(s) with Propio

CareSource and Propio have developed a system within Atrium to check the eligibility of members to receive interpreting services. It is CareSource's obligation to provide Propio with accurate, up-to-date member eligibility data. If interpreting services are provided to an ineligible person due to a CareSource error in providing Propio with eligibility data, CareSource will not hold the provider financially responsible.

Assisting with Partner, Member, and/or Appointment-Type Eligibility Questions

CareSource Provider Services is available to assist providers with questions regarding the provider's eligibility to access services, member eligibility, and appointment-type eligibility. Contact Provider Services at <1-833-230-2100> for questions or concerns regarding these topics. Contact Propio directly for any questions or concerns regarding scheduling, rescheduling, and/or cancelling an interpreting appointment.

Right to Limit and/or Withdraw a Provider's Direct Access to Interpreting Services

CareSource reserves the right to limit and/or withdraw a provider's direct access to OSI, OPI, and/or VRI services at any time and for any reason, including, but not limited to:

- Repeated failures to abide by this Usage Policy.
- Any legal and/or corporate change that alters CareSource's provision of interpreting services.
- Any change to the Propio-CareSource contract that results in a discontinuation of or alteration to the services described in this Usage Policy.
- Any change in the relationship between CareSource and the provider.

Change in Eligibility

Member eligibility is updated daily on CareSource systems and communicated to Propio. If a member eligibility change affects a scheduled interpreting appointment for that member, the appointment will be automatically cancelled, and a notification will be sent to the provider email address.

Entering into a relationship with Propio

CareSource understands that some of its providers have separate business relationships with Propio or may decide to enter into a business relationship with Propio, to provide language solutions for non-CareSource members.

To the extent a provider maintains a separate business relationship with Propio, they do so at their own discretion and at their own risk. CareSource assumes no responsibility for the relationship between any provider and Propio and cannot be held responsible for any appointments scheduled for non-CareSource members.

Acknowledgment Form

I, _____, as an authorized representative
of _____ (hereinafter, "Provider"),

do hereby state as follows:

1. I have read and understand the CareSource Interpreting Services Usage Policy (hereinafter, the "Policy");
2. Provider agrees that it shall abide by the terms and conditions of this Policy;
3. Provider shall ensure that all employees, agents, or other representatives permitted by provider to use or access Propio interpreting services are informed of the terms conditions of this Policy and agree to abide by them prior to being permitted such access;
4. Provider will maintain up-to-date User information with Propio at all times.

ACKNOWLEDGED AND AGREED:
